The purpose of the meeting on Thursday is to create an expanded or annotated outline from the work we have done to date. This will enable us to get an overall view of the progress we have made, identify gaps in our work and identify areas of information that we planned to collect but have not yet started. We first met on December 16. The summary of that meeting is attached.

There is no formal agenda for Friday. We have primed Tom and Daniel with some questions. Bring what ever questions and topics you want to discuss.
